The Role of Solution NMR in 21st Century Structural Biology

报告人： Prof. Kurt Wüthrich

(2002年诺贝尔化学奖得主)

报告时间： 2016年11月2日 (周三) 13:30

报告地点： 9501会议室

主持人： 王江云 研究员

报告人简介

Prof. Kurt Wüthrich, 2002 Nobel Laureate in Chemistry, has his primary appointment at TSRI, with additional activities as Professor of Biophysics at the ETH Zürich in Switzerland and as Distinguished Senior Professor at the iHuman Institute of Shanghai Tech University.

His research interests are in Biology, structure and function of proteins and nucleic acids; development of nuclear magnetic resonance (NMR) techniques for macromolecular structure determination in solution and for studies of intermolecular interactions; applications in structural genomics, proteomics and biomedical research.
